

2/2/22

Copenhagen Board Members and Mayor Souva,

National Grid asked that the Banner Project, (Copenhagen C.A.R.E.S.) needed to list the pole identification numbers for desired poles.

The pole numbers have been listed for Main Street as well as high trafficked streets Cataract and Mechanic.

Jennifer Edgeberg from National Grid (315-785-7331) also said all communication and approval must go through the Copenhagen Board.

At this point, the number of banners and what poles will be totally up to the village board and which poles National Grid will give their consent.

This is the first year for this Banner Project, and we anticipate that there will be lots of enthusiasm. However, before we can put the word out, via websites, word of mouth, we need to know how many banners we will be allowed to be put up. Is 25-30 too many? 20? We certainly understand that there might be limits. The Veteran's Flag Committee has already decided that deceased veterans will take precedent. We may find that

we will have to use a rotation system if there is a tremendous interest.

The next meeting for Copenhagen CARES is the day after your monthly meeting. I will be in Florida, but you can text me any updates, decisions you have on the matter and I will forward to the Veteran Banner subcommittee of Copenhagen CARES. Our goal is to have some flags flying in our Veterans Honor for the Memorial Day Parade. Hopefully, that is possible.

Thank you,

Cyndy Pridell 315 408 8208

The Veteran Banner sub committee (Members of the American Legion)
