RIVER AREA COUNCIL OF GOVERNMENTS

July 2025

MUNICIPAL MANAGEMENT MONTHLY ANNOUNCEMENTS

RACOG UPDATES

- **RACOG Economic Visioning Summit**

Looking to have it in March 19, 2026 at the Howard G. Sackett Technical Center so culinary students can gain the experience in doing the lunches for it. I reserved the rooms for that day.

- **Student Activity & Outreach**

RACOG Student Board - Three of the students on the RACOG Board will be helping town of Watson with ideas for their park upgrades. Feel free if you would like some youth input to let us know on any projects or issues.

Civic Service Student Activity Program (CSSAP) - This program will run again next year, with RACOG sponsoring the lunches. Patrick Brady from the commission will be taking over as lead for this project.

- **Water/Wastewater**

Wastewater Operator Training - At this point in time, no new updates.

Shared Services - Villages of Copenhagen and Castorland looking to do shared services for water/wastewater operations. The town of Wilna is looking into shared services with the village of Deferiet. The village of West Carthage mayor mentioned they would entertain providing shared services to the town of Champion.

- **RACOG Associate Circuit Riders**

Mackenzie Judd will be gone for the summer. I do have another person interested, his name is Sayer Colwell to help fill the gap while she is gone.

- **Diamond Maps Training**

If you are interested in a training on Diamond Maps or want to see a demo, let me know. The town of Wilna and village of Deferiet had an informal training recently.

- **Naturally Lewis Funding Opportunity**

Looking to apply for funds for a strategic plan for RACOG.

Service Report

Customer Name:	Copenhagen		
Job Name:	Evaluate UV 3000+		
Job Number:	14021		
Job Site Contact Name:	Rich Ross	Phone:	315-688-4229 x2
Job Site Address:	2915 Mile Sq Rd., Copenhagen, NY 13626		
Date/Dates of Service:	6/9/25		
Service Technician:	John West, Aidan Greene		

Description of Work Performed:

- Arrival time: 0930
- Departure time: 1100
- Drove to site.
- Met with operators.
- A recent e-coli sample came back way out of range.
- Alarm history only showed an alarm for a PLC condition that in no way effects the system performance or its ability to meet disinfection criteria.
- Wipers are performing as designed.
- No lamp failures.
- Spot checked a module on each bank of lights there was no sleeve fouling or evidence of anything physically wrong.
- A UVT sample was taken, and the measured transmittance was 70% the entered value is 65% which should not have affected disinfection.
- An entered flow of .25 MGD is being used to pace the system, this seems adequate.
- For the purpose of testing, I increased the entered flow to .35 MGD and entered a 60% UVT for now.
- This will increase lamp output, and we'll see how the next sample comes out.
- I do suggest that a flow meter that will give the UV system a real time value be incorporated into the system.
- KAI can quote this if it is deemed necessary.
- Left site.

PROPOSAL

Only With Zultys

One-Touch Record – Press a record button on a physical phone inside Zultys Advanced Communicator (ZAC) or with MX Mobile on your iPhone or Android device. The recording starts from the beginning of a call with the simple press or click of a record button during an active call.

Call Attach Data – Take notes during and after a business call with customized Call Attached Data (CAD) fields. CAD fields are included with a call when transferred to other users on the system. Acknowledging why someone is calling helps improve the customer experience. Run reports on any CAD field using MXreports.

Seamless Across Devices – Flow effortlessly between Zultys desktop phones, the ZAC desktop application, and the MX Mobile app. And when you can't download the ZAC app, full functionality can still be used on browsers via WebZAC as both ZAC and WebZAC utilize WebRTC technology.

White Glove Service From Start to Finish

From purchase to installation, integration, implementation, and training, we'll be with you every step of the way. From set up to maintenance, we will ensure that you're receiving a superior customer experience, comprehensive instructions on how to use your new system, and the industry-leading support that we're known for. It's all part of choosing a smarter communications solution.

Zultys has the most responsive support that I've ever worked with. They're the best product and vendor I have ever worked with hands down."
- Zultys customer of 12 years

PROPOSAL

You're Protected

- Single secure virtual instance with dedicated login and passwords per customer
- Separation of all data from other customers
- HIPAA Compliant
- Kari's Law Compliant
- Ray Baum's Act Compliant
- Physically secured data centers
- Encrypted telephone calls
- Optional MPLS through customer's carrier

Robust Scalability

- Support 5 to 10,000+ users
- Add or delete users from a portal to support your business seasonally
- Feature set that continues to grow with current technology demands

World-Class Support

- 100% US-based support
- Implementation specialist assigned to each account
- Zultys Support Desk button on every phone
- Webinar training and video training

More Reliable

- Single secure virtual instance per customer
- Delivering 99.999 reliability
- Geo-redundant data centers
- Blended bandwidth for better uptime than most competitors that only use one underlying carrier
- Mobility application for cell phones for all users to protect against local last mile outages at the customer's site

Business Critical Integration Options

Zultys allows integration with most software and can also do custom integrations. Contact sales@zultys.com to inquire about your CRM/ERP/EMS specific needs and possible integrations as capabilities can be dependent on third-party software versions. Below are some of the most popular integrations implemented for our customers in the past:

- Premium & Contact Center User Integration
 - Outlook
- Zultys Specialty Integration License
 - Microsoft Teams
 - Salesforce
- Zultys Flex Communicator Integration
 - Agency Matrix CRM Insurance
 - ConnectWise
 - Desk.com by Salesforce
 - E-Leads

PROPOSAL

Features

Mobile ZAC for iPhone and Android

Zultys mobility solutions for Unified Communications allow employees to stay in contact no matter where they are. Mobile ZAC is a real-time presence and communications client for Android and iOS that delivers a complete Unified Communications experience to mobile workers by integrating them into the corporate Voice and Unified Communications system. Zultys mobility solutions provide critical tools like voice mail access and management, presence, internal extension dialing, corporate directory access, and least-cost routing to cut international call costs. Mobile ZAC supports call group functionality, allowing users to make and receive calls for the call group extension from their smartphones. Users can also share files with coworkers over the application.

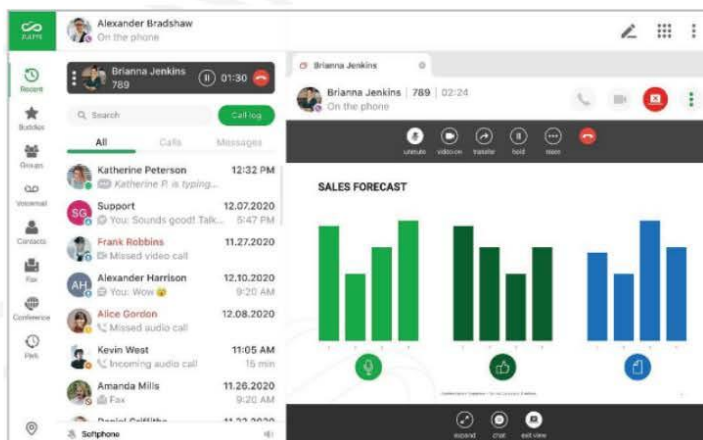

Click [here](#) to review the Mobile ZAC flyer

ZAC Unified Communications Client With Softphone

Zultys UC client for desktop. Zultys Advanced Communicator (ZAC), Integrates and manage all of your communications functions. The client lets you see the presence status of others in your company. You can send emails, control all your phone calls via desktop phones or a softphone, send and receive faxes, send secure Instant Messages and voice messages, share your screen, check voice mail and much more.. all with a single mouse click. ZAC comes prepackaged with the softphone feature, giving users the option of turning their computer into a phone.

Zultys Outlook Communicator

With Zultys Outlook Communicator, your Zultys IP phone system can be closely integrated with Microsoft Outlook. Users have full call control and can call contacts directly from Outlook. This product conveniently synchronizes the user's Presence with their Outlook calendar, allowing it to be changed directly from Outlook.

Click [here](#) to review the Zultys Outlook Integration flyer

ZAC Conference

ZAC Conference eliminates the need for costly pay-as-you-go subscription-based conference services. ZAC Conference is fully integrated with the ZAC, Web ZAC, and Mobile ZAC and uses a simple management screen to schedule, manage, and launch audio and video conferences through basic point-and-click commands — whether they are on-demand or planned weeks in advance.

Advanced Color Gigabit IP Business Phone

The Z 23GE combines a color display and dual Gigabit Ethernet ports in a feature-rich IP phone ideal for busy phone users.

Functions and contacts may be accessed quickly via 14 programmable soft keys. A dedicated headset port, built-in Bluetooth functionality, and Electronic Hook Switch support offer enhanced usability for wired and wireless headset users.

The Z 23GE is fully compatible with Zultys' ZAC Unified Communications applications, allowing users to manage calls and messages directly from their computer.

Like all Zultys phones, the Z 23GE utilizes the Session Initiation Protocol (SIP) open standard and is managed from the Zultys MX Administrator application for rapid deployment and the industry's lowest total cost of ownership.

Feature Highlights

- 14 programmable LCD labeled keys
- 4 context-sensitive soft keys
- 320x240 pixel color display
- Full call control via ZAC
- Handsfree speakerphone
- Local 3-way conference
- Dedicated headset port with EHS support
- Built-in Bluetooth
- Wi-Fi support (optional adapter required)
- LDAP contact directories
- Personal directory
- Call forward/Call transfer/Call waiting
- One-touch call transfer and conference
- One-touch call record button with look back capabilities
- Call park and pick up
- Display of caller and called line information
- Call Log and Redial
- Missed call notification
- Paging and Intercom auto-answer capabilities
- VLAN, DSCP, and QoS support
- SIP open standard
- 802.3af Power over Ethernet
- Hearing Aid Compatible (HAC) handset
- Log into Call Groups from phone
- Wall mountable (optional bracket required)

Key Features and Benefits:

Color Display & Ease of Use

The 320x240 pixel color display of the Z 23GE provides detailed call information accompanied by dynamic icons to minimize training requirements and maximize usability. Eight LCD-labeled buttons support up to 14 programmable keys (two pages of seven keys). The key alert feature ensures that users are instantly alerted to Busy Lamp Field (BLF) and new call events. Four context-sensitive soft keys below the display make conferencing, transfer, and other operations a breeze.

Remarkable HD Audio

Handsfree speakerphone with acoustic echo cancellation, combined with high quality wideband HD speaker, microphone, and handset components, ensure that conversations are always loud and clear to minimize fatigue for heavy phone users.

Wireless Headset Support (EHS)

The Z 23GE can combine with a compatible Wireless Headset and the Zultys EHS adapter. Staff requiring mobility around the office will appreciate the convenience of the Electronic Hook Switch control. Refer to zultys.com/faq and the "Which phones support EHS (Electronic Hook Switch) headsets?" section for more information. The Z 23G may also be used with a compatible Bluetooth headset.

Simplified Deployment

From initial deployment and configuration to future enhancements and upgrades, the Zultys Z 23GE will save your business time and money. Dual auto-sensing switched Gigabit Ethernet ports eliminate additional wiring and simplify installation. Integrated IEEE 802.3af Power over Ethernet and low power consumption ensure rapid deployment while minimizing your carbon footprint. Full support for industry-standard VLAN and QoS networking protocols ensure voice has the highest priority across your network. Simple centralized provisioning is provided via the Zultys MX Administrator graphical management interface providing a single point of management for the complete Zultys "all-in-one" Unified Communications solution.

Enjoy Better Connectivity With **FREE** Business Voice Features

Transfer customers instantly, forward your calls to a mobile device, access your voicemails from anywhere and much more with over 35 FREE advanced business calling features.

Dialing and Talking

Call Hold

Holds active calls and lets you make or receive a second call, then alternate between the two.

Call Logs

Keeps a record of all missed, received and dialed calls.

Call Return[†]

Calls back the last party that called you.

Call Transfer

Easily transfers active calls to an internal or external line.

Call Waiting

Allows you to manage multiple callers at the same time.

Call Waiting Cancel

Stops incoming calls to ensure no interruptions when you are on another call.

Caller ID Custom[†]

Allows you to choose the phone number and name that others see when you call.

Extension Dialing

Quickly connects phones in your workplace using an extension.

Hold Music[†]

Plays music for inbound callers placed on hold.

Speed Dial[†]

Lets you quickly dial frequently called numbers.

3-Way Calling

Connects you with other parties at once.

Receiving and Screening

Call Blocking

Restricts certain incoming calls—collect, international, long distance, third party, directory/operator assistance.

Call Guard

Block malicious robocalls and receive Caller ID alerts like "SPAM RISK" for other telemarketing calls. Add phone numbers to your Allow List so they're never blocked or alerted.

Call Pick Up

Allows members of a group to answer one another's incoming calls.

Call Rejection

Restricts calls from anonymous or specified numbers.

Caller ID

Displays name and number of caller before you answer.

Directed Call Pick Up

Enables you to pick up an incoming call on another line by entering * + the extension on your phone.

Hunt Groups

Routes calls to open extensions so callers can reach a live person.

Intercept Message[†]

Notifies callers when a disconnected number is no longer in service.

Selective Call Rejection[†]

Lets you create a list of numbers to block. Callers hear a message saying you're not currently accepting calls.

Sequential Ring

Rings up to five additional phone numbers in sequence (when phone is not answered, goes to next phone) when the line is called.

Simultaneous Ring

Rings multiple phones—inside or outside the office—at once or in sequence.

Voicemail and Call Forwarding

Call Forwarding

Forwards your incoming calls to another number.

Call Forwarding Always

Forwards all your incoming calls to another number.

Call Forwarding Ring Splash

Plays a special short ring tone to remind you when a line is forwarded.

Call Forwarding Selective

Lets you choose which incoming calls will be forwarded to another number.

Fax Mailbox[†]

Lets you view faxes online and sends a copy of the fax to email.

Fax to Email[†]

Sends incoming faxes to your email.

Forwarding No Answer / Busy[†]

Forwards your calls only when your line is busy or you don't pick up.

PIN Resets / Changes

Updates the passcode needed to access Voicemail box.

PIN Skip

Turns off the need for a PIN to access Voicemail.

Readable Voicemail (VM to Text)[†]

Transcribes Voicemail to text and sends it to your email or mobile phone along with an audio file.

Voicemail

Lets callers leave a message for you.

Voicemail Setup

Sets up your Voicemail box and PIN.

Voicemail to Email

Sends Voicemails to your email.

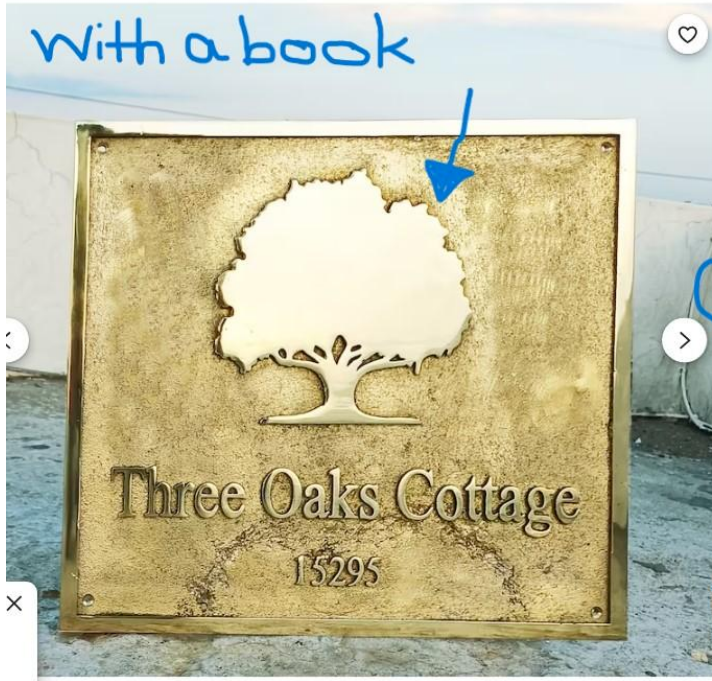

[†] Feature not available in all areas.
